

PATIENT LIFT

Secure, Dependable, Simple Operation

- Base legs stay compressed or open wide for easy access, movement and stability
- Hydraulic lift mechanism
- Double castor wheels for smooth movement
- Pinch-free boom arm

Designed to give an easy and safe transport for patients, Detecto's Patient Lift makes lifting and transferring patients of all sizes a simple chore. The four ball bearing, double castor wheels with parking brakes along with adjustable, tip-free base legs allow easy access to wheelchairs, beds, tubs, and toilets.
